EXAMINER'S AMENDMENT/COMMENTS

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Replace the abstract with the following abstract for proper language and format in compliance with MPEP § 608.01(b).

ABSTRACT

A DMA scheduling mechanism for transmission of fragmented buffers having a processor for controlling several devices via a polled interface to interleave DMA data transfers on different Input/Output (I/O) ports in an efficient manner. The system handles transmission of network packets which are reassembled from multiple memory buffers with different octet alignments is provided. The hardware/software combination allows efficient joining of packet fragments with differing octet alignments when the underlying memory system is word based, and further allows insertion of other data fields generated by a processor.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Claims 1, 12, and 23 recite, inter alia, a method and system for scheduling at least one data transfer from a plurality of I/O devices each having a DMA controller and being associated with one or more network ports having an interface for polling the I/O devices for status inputs and storing the identifier associated with the selected I/O device in a first register of the interface and a processor for accessing, selecting and executing the selected handler routine based on the identifier to process data transfer with the selected I/O device.

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kim Huynh whose telephone number is (703) 308-1678. The new phone number, effective 10/20/04, is (571) 272-4147.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
